Overall places (disregarding classes) is on the next page

Some positions have been changed from the list posted here on Sunday 28th August. Those finishing on the same number of laps in the same minute should have been sorted in the order they crossed the line on the last lap. Thanks to Steve White for pointing this out, and apologies for dropping you from 3rd to 4th overall (below)!

However, classes were started 20 seconds apart (Experts, then Clubman, then Sportsmen, then Over 45s), so Experts immediately had 60 seconds advantage over the Oldies! As finishing times were not recorded in seconds, this cannot be resolved any further.
